GAME RULES

1. Select a challenge and place the trucks and cargo on the board as shown in the challenge.
2. Drive the trucks and tilt the cargo according to the following rules:
   - **Trucks** can drive back and forth in their designated lanes.
   - **Cargo** can be tilted between the loading platforms of adjacent trucks.
   - **Exits** may only be used by a truck that is carrying a cargo matching its own colour.

   Tip:

   Think ahead! Once a truck exits, it can't reenter. Removing trucks too soon can prevent you from solving the challenge.
3. Solve the puzzle by loading all cargo on the correct trucks and delivering them through the exits. The shortest solution for each challenge is shown at the end of the challenge booklet.
